## **PROBABLE CAUSE:**

On February 5, 2024, Kenosha Police Department Detective Kunz was assigned to investigate an anonymous report made to the Kenosha County Department of Family Services (DCFS) on February 2, 2024.

The information provided to DCFS was that Kenosha Unified School District (KUSD) was made aware of an inappropriate texting relationship between a 14-year-old female student identified for the purposes of this complaint as KG and her teacher at Kenosha School of Technology (KTEC) West Middle School, Christian Enwright, hereinafter referred to as the Defendant. Per the report, school staff had already spoken to KG, who admitted to being friends with the Defendant on SnapChat and TikTok since June of 2023, and conversing with the Defendant daily since Christmas of 2023. However, she denied anything inappropriate ever occurred.

Per the report, KG was then released from the school office, with her cell phone still in her possession, and then deleted all the communication between her and the Defendant. KG's mother Megan G. was notified, at which time Megan requested staff take possession of KG's cell phone, which they did. The Defendant was then placed on administrative leave.

On February 6, 2024, Detective Kunz made contact with KG's mother Megan, who confirmed the information provided in the DCFS report. Megan also provided a screen shot she found in KG's

phone of a SnapChat conversation between KG and “Christian Enwright,” which took place on February 4, 2024, at 12:13AM, which is the last day of their communication (COUNT 22). It reads, in part, as follows:

KG:  
omggggggg  
are you mad at me

Christian:  
kinda

KG:  
why????

Christian:  
you know why  
[name of male classmate with the first initial C]

KG:  
i don't like him.  
i tell you stuff all the time how would i like him

Christian:  
okay

KG:  
why do you think that

On February 7, 2024, Megan gave Detective Kunz permission to forensically download KG's cell phone, which was still in the possession of KTEC West. On February 8, 2024, Detective Kunz retrieved KG's cell phone from KTEC West and brought it to the Kenosha Police Department to be forensically downloaded.

In reviewing the download of KG's cell phone, Detective Kunz located images which were saved from KG's SnapChat conversations with the Defendant. These images included “selfies” the Defendant took of himself and sent to KG, which also included text consistent with the Defendant responding to dialogue or images or videos sent to him by KG. (COUNTS 3-21). Based on Detective Kunz's training and experience, he is familiar with SnapChat and knows that people who often send each other short video clips or image with text on it as a way to communicate, in addition to written messages. Detective Kunz also located two images sent to KG by the Defendant of his lower body, which also included text. (COUNTS 1-2) Detective Kunz was able to locate the creation date and time of the images on KG's cell phone, but was unable to determine which of KG's messages/videos/images that the Defendant's photographs were in response to.

Those images are as follows:

Detective Kunz also located 603 deleted SnapChat messages from the Defendant to KG between January 26, 2024, and February 1, 2024. These messages occurred throughout the day, including as late as 12:19 AM and as early as 6:37 AM. Although the date and time of the messages were visible, the content of the messages were not due to them being deleted.

On February 16, 2024, KG was forensically interviewed at the Kenosha County Child Advocacy Center by Taume Kohl. KG was reluctant to provide any information, but did state that she and the Defendant were friends on SnapChat and TikTok. She and the Defendant would use TikTok sporadically to share videos and make small talk, but mostly communicated via SnapChat. KG advised that messages between her and the Defendant began to occur more often around December of 2023. KG admitted to deleting the Defendant's SnapChat account from her phone the day this was reported to her school because she was afraid of getting in trouble.

When asked about her messages with the Defendant, KG mentioned how the Defendant recently got up with her because he thought she liked another guy named [same name as in the SnapChat messages above] (Count 22). When asked how she felt about that, KG said, "it wasn't right."

Detective Kunz then spoke to Megan and coordinated with her in order to obtain all SnapChat data from KG's account via a user request, which Detective Kunz knows based on his training and experience to be a better way to get SnapChat data rather than via warrant. Megan did this and forwarded the data to the Kenosha Police Department. Detective Kunz reviewed this information and observed that KG became SnapChat friends with the Defendant (enwright23) on June 13, 2023, and that KG deleted the Defendant from her account on February 1, 2024.

On February 29, 2024. KG was once again forensically interviewed by Ms. Kohl after asking her mom if she could go back to provide more information. KG advised that things started between her and the Defendant when the Defendant would complement her. He would tell her, "you look cute" or "you look good." He would also complement her on her eyes and legs. Their hugs also changed from normal hugs to hugs around the waist.

KG said her and the Defendant would message all day, but not during school hours. The constant messaging started at the end of November of 2023 or possibility in December of 2023. KG advised that they discussed not telling people about their communications, but that he never said it directly, only "implied it." The Defendant would also, once a week, delete KG off of his SnapChat. He did this because she was "getting too high up on his friend's list."

KG mentioned how the Defendant would get mad at her when he found out she was talking to another guy from school. KG said one time she was talking about to him about it and he told her she "better watch what she said." The Defendant also got mad at KG when she mentioned how another teacher was cute.

KG denied sending the Defendant any nude photographs or videos, or being sent any nude photographs or videos by the Defendant. She did mention one picture she got from the Defendant where he was sitting on the couch with a hoodie. KG said he didn't have any pants on, only a towel, and when she asked what he was doing, the Defendant replied, "I can't say."

On March 26, 2024, Detective Kunz interviewed the Defendant at the Kenosha Police Department with his wife Leah Enwright present in the interview room. The Defendant advised he was aware of the investigation and denied he had done anything wrong. The Defendant admitted to
