## Mayor Diny Statement on Drop Box

The city clerk is out of her lane, I don't work for her.

The Wausau City Attorney is in the middle of a performance review for not doing her job, initiated after claims made by a departing assistant city attorney came public in July. I had to bring in an independent law firm to handle that.

Meanwhile, Brookfield and New Berlin, WI brought the question of drop box utilization to their city council. That's what I would like to do.

More than once, Robert Kennedy has reminded us that progress depends on change and change always has its enemies.
